

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

## NEW YORK BOARD OF FIRE UNDERWRITERS.

TO THE NEW YORK BOARD OF FIRE UNDERWRITERS:

GENTLEMEN:—The Committee on Fire Patrol present herewith the report of the operations of the force for the year ending December 31st, 1902.

At the Annual Election of the New York Board of Fire Underwriters held May 19th, 1902 the following Gentlemen were elected members of the Fire Patrol Committee:

E. H. BETTS,  
A. G. MCILWAIN, JR.  
F. V. PRICE,

W. B. OGDEN,  
E. G. SNOW,  
M. A. STONE.

A. M. THORBURN.

MARSHALL S. DRIGGS, President of the Board	} <i>ex-officio.</i>
BENONI LOCKWOOD, Vice-Pres't " " "	
LINDLEY MURRAY, JR., Treas. " " "	

Organization of the Committee was effected by the election of W. B. Ogden as Chairman and E. G. Snow as Vice-Chairman.

During the year 1902, 54 meetings were held by the Committee and 44 Orders were issued to the force—25 Appointments were made to the auxiliary force—12 promoted to the permanent force and 9 resigned—38 Complaints were made against members of the force for infractions of the Rules and Regulations which resulted in the dismissal of 14—suspension from pay and duty 14—reprimand 5—and 5 complaints dismissed, and one died while in service.

The event of the year in life saving was the successful rescues made by Patrolmen Francis T. Diffin and Thomas A. Ryer of Patrol No. 5.

The following Order was issued to the force reciting all the facts in the case and the recommendation of the Committee as to the Underwriters medal.

ORDER No. 845.

NEW YORK, September 25th, 1902.

With great pride and with extreme gratification, this Committee again places upon the records, acts of great courage and daring performed by members of the force, under most trying circumstances.

At about four o'clock on the morning of August 28th, 1902, fire was discovered in the lower part of apartment house No. 315 West 121st Street, New York City; when discovered, escape from the upper part of the building was virtually cut off. Fire Patrol No. 5 was instantly on the ground and immediately upon the arrival of hose wagon of Engine Company No. 58, New York Fire Department, Patrolman Francis T. Diffin seized a scaling ladder, ascended the front of the building, amid flame and smoke, to the third floor, where he found Mrs. Jennie Hager and brought her safely to the ground.

Patrolman Thos. H. Ryer then ascended in the same daring manner, and with the assistance of Patrolman Diffin and a member of Hook and Ladder Company No. 14, New York Fire Department, rescued from the same floor, Mrs. Georgiana M. and Mrs. Victoria A. Albert, both well nigh exhausted, one being an invalid and practically helpless.

Such acts as these reflect the greatest credit upon the force, and upon the recommendation of this Committee, the New York Board of Fire Underwriters unanimously awarded the Fire Underwriters' Life Saving Medal to each of the patrolmen named.

---

At the regular meeting of the New York Board of Fire Underwriters held October 15th, 1902, the Fire Underwriters Life Saving Medals were presented by Mr. Marshall S. Driggs, President of the Board to Patrolmen Francis T. Diffin and Thomas H. Ryer in the presence of officers and representatives of the Fire Insurance Companies, and others.

March 19th, 1902, owing to the death of Storekeeper Captain John M. Kimmens, Lieutenant Dennis J. McCarthy of Patrol No. 6, who after forty years' honorable service in the Patrol was relieved from active duty and placed in the supernumerary list, was detailed in charge of supplies as storekeeper, which detail necessitated filling the vacancy in the Lieutenancy of the active force, and Sergeant William E. Florence

of Patrol No. 6, was promoted to that position, and Permanent Patrolman Samuel Phillips of Patrol No. 2, was promoted to fill the vacancy caused by the promotion of Sergeant Florence.

The results for the year show an increase in the number of fires and alarms, but the amount of loss as furnished by the Insurance Companies interested, shows a considerable decrease.

The record of prominent fires in excess of \$50,000 shows 17 in number for 1901 with an aggregate loss of \$2,523,010.20 while those in 1902 number 13 with an aggregate of \$1,629,493.96.
